

Ankle Saver™

The Ankle Saver is a neoprene product that allows for hands-free treatment of the ankle or fetlock joint, the second most commonly injured joint in the horse's body. The Ankle Saver's 18 powerful light energy diodes target all areas associated with common ankle problems. It helps correct problems in the lower portion and the extensor branch of the suspensory ligament, the deep and superficial flexor tendons, both sesamoids, osselets, joint inflammations, wind puffs, etc. The Ankle Saver can be used to treat existing injuries, relieve the effects of competitive stress and prevent ankle problems in all four legs. With a treatment time of only 15-20 minutes, it is convenient and easy to use.

The Ankle Saver addresses these common ailments:

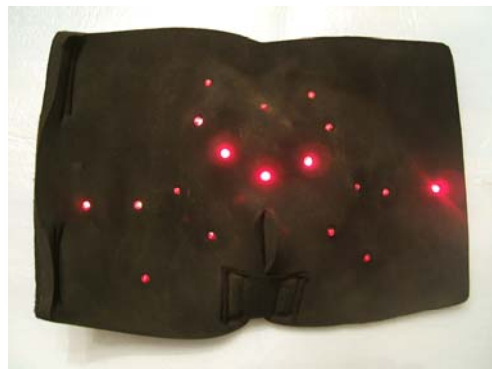

- Joint inflammation
- Sesamoids
- Osselets
- Wind puffs
- Suspensories & other ligaments
- Tendons
- Arthritic inflammation & pain
