

BioFind by BioScan

Price: **\$2,495.00**

The BioFind is a revolutionary, one-of-a-kind device for scanning the entire horse's body. Whenever living tissue is damaged or injured, there is a change in electrical resistance in the tissue relative to the surrounding area. The BioFind helps locate these areas by reading variances in electrical resistance in the tissue. It emits an audible signal when it locates these variations so that the area can be marked with a watercolor crayon.

The BioFind can help locate compromised areas such as sore muscles, tendons, nerves and joints. It can also help locate internal problems by detecting active acupuncture points. When used in an ongoing fashion, the BioFind has great value in helping prevent problems (such as bowed tendons), by often detecting electrical changes BEFORE obvious physical damage occurs. Called "a window to the body" by medical professionals, the BioFind is simple and easy to use, requiring no special knowledge; however, the more you learn, the more efficient you become.

The BioFind is the key to our whole product line. No matter which therapeutic modality you choose, optimal results depend on knowing exactly where to apply the therapy.

- Scans and locates weak or damaged areas
- Indicates areas before they become serious
- Adjustable settings
- Lightweight and durable
- Portable, battery powered (12 volt-1.2 amp/hr)
- 18 month full warranty

The BioFind (includes probe, crayon and holder)
